

# Signet recording costs reduced

*Signet*

## Signet recording will be cheaper in 2017

Signet has a new fee structure for Dorset breeders to encourage online data entry.

Fees will be £50 lower for a 50-ewe flock and £100 lower for a 100-ewe flock.

## New Dorset information in 2017

- Guidelines for scanning have changed. Dorset breeders can now scan younger, well grown lambs
- Online data entry means breeders can update lambing, 8 week weights, shearing weights and census information
- Inbreeding values and inbreeding software are available online.
